

McKeesport Area School District History Project

The McKeesport Heritage Center has a record of the history of the McKeesport Area School District through the 1930's. Currently a group has been working on compiling a record of the history of the district beginning with the decade of the 1940's. This era includes the Golden Age of McKeesport Area- the time when the community was a leader in business opportunities and cultural experiences. It is with this thought that the story of the people – the students, teachers, administrators and support staff be told. This story will be documented noting the flavor and tempo of the people, schools and times from the 1940's to the present.

Attached is a questionnaire designed to collect memories of your school experience.

Below is a list of items that may trigger some memories that may help you complete the questionnaire.
